

55 N - Pulsmatic

These soldering irons enable solder wire to be fed through as necessary, thus freeing the hand that is normally occupied in holding the solder when soldering.

Indispensable for repetitive tasks, for which they increase output and reduce costs.

The soldering irons are fitted with 50 g reels lead free solder reel $\varnothing 1\text{mm}$ - 96.5% Sn / 3.5% Ag solder.

Solder feed from external high-capacity reels can be arranged

Adjusted for solder wire of $\varnothing 1\text{ mm}$

One soldering-iron model for direct connection to the mains at 230V - 230V UK, plus two temperature-controlled digital or analogue soldering stations.

- Power: 33W
- Max. temperature: 410 °C
- Delay to 300 °C: 3min
- Weight without cable: 228g.
- Total packaged: 520g
