

# QUICK969ESD

## Common Soldering Station

### Features:

1. Ceramic heating element with super long life time. Same soldering tip and heating element as those international ones for easy replacement.
2. Light handle; Suitable for a long time of use.
3. ESD Safe by design, it can protect the sensitive SMD components from being damaged by the leaking of static charge.
4. Precise and stable temperature control.
5. Especially suitable for mounting and rework SMD components by hand, soldering common and directly-inserted electronics and lead free soldering under other special conditions.

### Specifications:

Power Consumption	60W
Output Voltage	24V AC
Temperature Range	200-480
Temperature Stability	1(stationary air, no load)
Tip to Ground Potential	2mV
Tip to Ground Resistance	2
Housing Surface Impedance	- Anti-electrostatic
Dimensions	170(L)*120(W)*93(H)mm
Weight	About 1.4kg
